

## Comuneros

We have well appointed, the individualization of each choreography (see choreography) whose average duration is between 0:15 each, with at least 16 dancers and 2 technicians involved in this proposal.

They can be placed in one or more choreographed scene with a space of 1 minute between dances (for change of clothes). The musical backing tracks is with LD.

Choreographies were created to spread the beautiful and varied cultural manifestations highlands, coast and Ecuadorian Amazon, each with its own musical structure, with their own clothes and their own ancestral identity.

So, this versatile and varied dancistic staging, allows our customers to form their own show, according to the public, setting and conditions that want to offer your guests

However, to have an always optimal result, it should be stressed that each show requires an appropriate physical and technical infrastructure and the customer must provide the dancers. Therefore, it is always advisable to take the show, according to the physical and technical conditions where it will present.
